- Gross Margin of 45.8% (+60 bp)
- GAAP EPS of \$0.27 / Non-GAAP EPS of \$0.52
- \$7 Million of Common Stock Purchased in Third Quarter
- Company Announces Fourth Quarter Acquisition of Grilla Grills

COLUMBIA, Mo., March 10, 2022 /PRNewswire/ -- American Outdoor Brands, Inc. (NASDAQ Global Select: AOUT), an industry leading provider of products and accessories for rugged outdoor enthusiasts, today announced financial results for the third quarter fiscal 2022 ended January 31, 2022.

Third Quarter Fiscal 2022 Financial Highlights

- Net sales were \$70.1 million for the third quarter of fiscal 2022, a decline from record net sales of \$82.6 million for the third quarter of fiscal 2021, reflecting a decrease in traditional brick-and-mortar channel net sales. On a two-year basis, net sales grew 61.8% over the third quarter of fiscal 2020, reflecting growth in the traditional sales channel of 26.6%, and growth in the e-commerce channel of 122.4%.
- Gross margin of 45.8% was an increase of 60 basis points over the comparable quarter last year.
- Net income was \$3.8 million, or \$0.27 per diluted share, compared with net income of \$8.0 million, or \$0.56 per diluted share, for the comparable quarter last year.
- Non-GAAP net income was \$7.4 million, or \$0.52 per diluted share, compared with non-GAAP net income of \$11.8 million, or \$0.82 per diluted share, for the comparable quarter last year. GAAP to non-GAAP adjustments for net income exclude acquired intangible amortization, stock compensation, transition costs, COVID-19 expenses, technology implementation, and other costs. For a detailed reconciliation, see the schedules that follow in this release.
- Adjusted EBITDAS was \$10.5 million, or 15.0% of net sales, compared with \$15.8 million, or 19.1% of net sales, for the comparable quarter last year.

Brian Murphy, President and Chief Executive Officer, said, "Over the past two years, many consumers have discovered for the first time, or rediscovered, a passion for outdoor lifestyle activities, as well as for shooting sports and personal protection. This new, larger base of consumer participation has helped drive significant growth in our business and should fuel our future growth as well. During the third quarter, net sales of products in our outdoor lifestyle category, which consists of products primarily related to hunting, fishing, camping, and rugged outdoor activities, grew by more than 80% versus the pre-pandemic third quarter of fiscal 2020, and net sales of products in our firearm-related shooting sports category, which includes shooting accessories and products related to personal protection, grew by approximately 45% versus the third quarter of fiscal 2020.

"We believe that some of the gains experienced by us and throughout the industry over the past two years were propelled by the pandemic resulting in outsized growth last year. As a result, total net sales in our third quarter declined approximately 15%, as the company lapped very strong growth of more than 90% in the comparable period last year. The decline was driven by lower net sales of products within our shooting sports category,

particularly those products related to personal protection, but were partially offset by growth of the products product sales in our outdoor lifestyle category. We moved quickly to adjust to this change in the post-pandemic environment and worked closely with our firearm-related OEM customers and retailers as they addressed rapidly shifting consumer firearm purchasing activity.

"Importantly, we continued to execute on a number of exciting initiatives that support our long-term growth strategy. Our outdoor lifestyle category grew by 7% in the third quarter versus fiscal 2021. Growth in our outdoor lifestyle category is an important component of our long-term strategic plan, and today we are excited to announce that we will acquire Grilla Grills, a direct-to-consumer provider of high-quality grills, smokers, and accessories to the \$7 billion, growing U.S. barbecue grill market. With the addition of Grilla to our brand portfolio, we gain an authentic brand with a loyal consumer following that is well-suited to benefit from our Dock-and-Unlock strategy and that will expand our direct-to-consumer revenue base. Both Grilla Grills and our existing MEAT! Your Maker brand are 100% direct-to-consumer brands that, when combined, are expected to generate nearly 10% of our total net sales. The acquisition of Grilla, which is expected to be immediately accretive and should close in the coming weeks, will also diversify our revenue mix further toward our outdoor lifestyle category, which we believe will generate nearly 50% of our net sales beginning in the fourth quarter. We are excited to welcome Grilla Grills into the American Outdoor family of brands.

"Our Dock & Unlock™ process continues to fuel innovation, drive future growth, and support our objective to deliver compound annual organic growth of 8% to 10% over the next four to five years. During the third quarter, we unveiled a number of new products, including two new meat grinders from MEAT!, our organically developed, direct-to-consumer, brand of meat processing equipment, and the Claymore, a truly innovative clay target launcher from our Caldwell brand. Many of our new products reflect our intent to continue growing our outdoor lifestyle category, while sharpening our focus in shooting sports on those areas that represent large, long-term, and more stable markets, such as shotgun sports, targets, and scopes. With a robust new product pipeline in place, a portfolio of authentic outdoor brands in hand, and an energized outdoor consumer, we are excited about the future and look forward to sharing our progress as we take our brands from Niche to Known™."

Andrew Fulmer, Chief Financial Officer, said, "We believe the strength of our balance sheet continues to provide us with multiple options to effectively deploy our capital to help drive growth, as demonstrated by our multiple new product launches in the third quarter and the planned acquisition of Grilla Grills in the fourth quarter. Grilla has delivered net sales growth of over 161% over the last two years and a compound annual growth rate of approximately 50% over the last five years. Our cash balance, combined with the expanded capacity on our line of credit, provided us with almost \$90 million of available capital at the end of the third quarter. We believe that our solid financial position enables us to execute on our capital allocation priorities, including investing in organic growth and potential acquisitions, as well as opportunistically returning capital to our stockholders. Accordingly, our Board authorized a share repurchase program of up to \$15 million of our common stock in December 2021, and as of the end of our third quarter, we had purchased \$7 million of our common stock. We have since then completed the program with \$8 million in common stock purchases during the fourth quarter."

"During the third quarter, we received data from our retail partners indicating that POS trends for products in our Shooting Sports and Personal Protection category that attach to firearms had declined. Based on this information, and our current visibility into the remainder of our fiscal year, we are adjusting our guidance range for fiscal year 2022 accordingly."

The Company is not providing a quantitative reconciliation of non-GAAP Adjusted EBITDAS guidance in reliance on the "unreasonable efforts" exception for forward-looking non-GAAP measures set forth in SEC rules because certain financial information, the probable significance of which cannot be determined, is not available and cannot be reasonably estimated without unreasonable effort and expense. In this regard, the Company does not provide a reconciliation of forward-looking non-GAAP Adjusted EBITDAS to GAAP net income due to the inherent difficulty in forecasting and quantifying certain amounts that are necessary for such reconciliation. Because certain deductions for non-GAAP exclusions used to calculate projected GAAP net income may vary significantly based on actual events, including variations in acquired intangible asset amortization and stock compensation expense, the Company is not able to forecast on a GAAP basis with reasonable certainty all deductions needed in order to provide a GAAP calculation of projected net income at this time. The amounts of these deductions may be material and, therefore, could result in projected GAAP net income being materially less than is indicated by projected non-GAAP Adjusted EBITDAS.

Conference Call and Webcast

The Company will host a conference call and webcast today, March 10, 2022, to discuss its third quarter fiscal 2022 financial and operational results. Speakers on the conference call will include Brian Murphy, President and Chief Executive Officer, and Andrew Fulmer, Chief Financial Officer. The conference call may include forward-looking statements and a discussion of non-GAAP financial measures. The conference call and webcast will begin at 5:00 p.m. Eastern Time (2:00 p.m. Pacific Time). Those interested in listening to the conference call via telephone may call directly at (833) 570-1129 and reference conference identification number 6165315. No RSVP is necessary. The conference call audio webcast can also be accessed live on the Company's website at www.aob.com, under the Investor Relations section.

Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income," "non-GAAP income per share diluted," "Adjusted EBITDAS," and "free cash flow" are presented. A reconciliation of these and other non-GAAP financial measures are contained at the end of this press release. A reconciliation of projected non-GAAP income per share diluted and free cash flow are contained under the "Outlook" section of this press release. From time-to-time, the Company considers and uses these non-GAAP financial measures as supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The Company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) stock compensation, (iii) transition costs, (iv) COVID-19 expenses, (v) technology implementation, (vi) the tax effect of non-GAAP adjustments, (vii) interest expense, (viii) income tax expense, (ix) depreciation and amortization, and (x) related party interest income; and (2) the non-GAAP measures that exclude such information. The Company presents these non-GAAP measures because it considers them an important supplemental measure of its performance and believes the disclosure of such measures provides useful information to investors regarding the Company's financial condition and results of operations. The Company's definition of these adjusted financial measures may differ from similarly named measures used by others. The Company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the Company's GAAP measures. The principal limitations of these measures are that they do not reflect the Company's actual expenses and may thus have the effect of inflating its financial measures on a GAAP basis.
