December 1, 2022

- **Net Sales \$54.4 Million**
- **Gross Margin 47.7% (+ 100 Basis Points)**
- **E-commerce Sales \$22.7 Million -- Traditional Sales \$31.7 Million**
- **Direct-to-Consumer Sales Growth of 119.1%**

COLUMBIA, Mo., Dec. 1, 2022 /PRNewswire/ -- **American Outdoor Brands, Inc. (NASDAQ Global Select: AOUT)**, an industry leading provider of products and accessories for rugged outdoor enthusiasts, today announced financial results for the second quarter of fiscal 2023 ended October 31, 2022.

Second Quarter Fiscal 2023 Financial Highlights

- Quarterly net sales were \$54.4 million, a decrease of \$16.3 million, or 23.1%, compared with net sales of \$70.8 million for the comparable quarter last year. E-commerce channel net sales of \$22.7 million declined 17.5% from the comparable quarter last year, resulting primarily from reduced demand in the shooting sports category, partially offset by a 119.1% increase in direct-to-consumer sales, which are primarily in the outdoor lifestyle category. Traditional channel net sales of \$31.7 million declined 26.6% from the comparable quarter last year, reflecting the impact of lower foot traffic at retail and retailers' efforts to reduce their overall inventory levels, as well as lower shooting sports sales to OEM customers. Compared with pre-COVID levels in the second quarter of fiscal 2020, total net sales grew 14.0%, while e-commerce channel net sales grew by 171.3% and traditional channel net sales declined by 19.4%.
- Quarterly gross margin was 47.7% compared with quarterly gross margin of 46.7% for the comparable quarter last year.
- Quarterly GAAP net income was \$370,000, or \$0.03 per diluted share, compared with net income of \$4.6 million, or \$0.32 per diluted share, for the comparable quarter last year.
- Quarterly non-GAAP net income was \$4.0 million, or \$0.29 per diluted share, compared with non-GAAP net income of \$8.3 million, or \$0.58 per diluted share, for the comparable quarter last year. GAAP to non-GAAP adjustments for net income exclude acquired intangible amortization, stock compensation, technology implementation, stockholder cooperation agreement costs, and facility consolidation costs. For a detailed reconciliation, see the schedules that follow in this release.
- Quarterly Adjusted EBITDAS was \$6.4 million, or 11.8% of net sales, compared with \$11.7 million, or 16.5% of net sales, for the comparable quarter last year. For a detailed reconciliation, see the schedules that follow in this release.

Brian Murphy, President and Chief Executive Officer, said, "Our second quarter performance demonstrates our ability to successfully navigate ongoing challenges in the macroenvironment while executing on our long-term strategy. We achieved net sales growth of 14% above our pre-pandemic levels of fiscal 2020 and introduced several innovative new products, while strengthening our balance sheet and marking a number of achievements that support our strategic priorities and reflect our dedication to leveraging our culture of innovation to deliver solutions for consumers in the moments that matter."

"Our direct-to-consumer business, which is largely comprised of our outdoor lifestyle brands, remained strong in the second quarter, delivering year-over-year growth of over 119%. We consider our direct-to-consumer sales to be one gauge of how well our brands are resonating with consumers, since those sales are not typically impacted by issues that have hindered retailers, such as inventory levels or limited open-to-buy dollars. Our direct-to-consumer category also includes MEAT! Your Maker meat processing equipment and Grilla outdoor cooking products, which are sold exclusively, direct-to-consumer. Together, these two brands generated nearly 10% of our total net sales and helped our Outdoor Lifestyle category generate 55.6% of our total net sales in the second quarter. We remain excited about growth opportunities in our Outdoor Lifestyle category, which consists of products related to hunting, fishing, camping, and rugged outdoor activities, and which delivered three-year growth of 22.5% over the pre-pandemic second quarter of fiscal 2020."

"Innovation is a key element in our long-term strategy, and new products launched within the past two years generated 30% of our second quarter net sales. During the quarter, we continued to leverage our Dock & Unlock™ process to deliver a steady flow of organically developed, exciting new products, including MEAT! Your Maker Dual Grind Grinders, and two new BOG® tripods, the Sherpa and the Infinite. These innovative tripods deliver enhanced versatility, durability, and weight savings, and they expand our BOG® product offering, which is extremely popular with hunters. During the quarter, we attended the National Association of Sporting Goods Wholesalers Expo, where our Caldwell Claymore Clay Target Thrower was recognized as 'Best New Accessory'."

"Our long-term strategy also includes a focus on leveraging our business model. We recently completed the consolidation of our Crimson Trace operations in Wilsonville, Oregon, as well as our Grilla operations in Holland, Michigan and Dallas, Texas, into our Missouri facility. We estimate that these consolidations will yield a net cost savings of approximately \$1.5 million per year, beginning in our fiscal fourth quarter, moving us closer to our long-term profitability objectives," concluded Murphy.

Andrew Fulmer, Chief Financial Officer, said, "We continued to further fortify our balance sheet in the second quarter, demonstrating effective capital deployment. We purchased over \$750,000 of our common stock in the quarter. Nevertheless, positive operational cash flow, including a reduction in inventory of over \$9.0 million, helped yield an ending cash balance of \$16.4 million."

"Turning to our outlook, we believe that retailers and distributors remain cautious regarding their inventory levels, and that consumer spending patterns going forward are still undetermined. That said, we believe our brands are performing consistently with long-term, positive consumer outdoor trends. As a result, we continue to believe our net sales for fiscal 2023 could exceed pre-pandemic fiscal 2020 levels by as much as 25%. We believe our solid financial position enables us to continue executing on our long-term strategic plan, investing in our business, returning capital to shareholders, and addressing the exciting growth opportunities we have identified for our company in fiscal 2023 and beyond," concluded Fulmer.

Conference Call and Webcast

The Company will host a conference call and webcast today, December 1, 2022, to discuss its second quarter fiscal 2023 financial and operational results. Speakers on the conference call will include Brian Murphy, President and Chief Executive Officer, and Andrew Fulmer, Chief Financial Officer. The conference call may include forward-looking statements and a discussion of non-GAAP financial measures. The conference call and webcast will begin at 5:00 p.m. Eastern Time (2:00 p.m. Pacific Time). Those interested in listening to the conference call via telephone may call directly at (833) 630-1956 and ask to join the American Outdoor Brands call. No RSVP is necessary. The conference call audio webcast can also be accessed live on the Company's website at www.aob.com, under the Investor Relations section.

Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income," "non-GAAP income per share diluted," and "Adjusted EBITDAS" are presented. A reconciliation of these and other non-GAAP financial measures are contained at the end of this press release. From time-to-time, the Company considers and uses these non-GAAP financial measures as supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The Company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) stock compensation, (iii) facility consolidation costs, (iv) technology implementation, (v) acquisition costs, (vi) stockholder cooperation agreement costs, (vii) income tax adjustments, (viii) interest expense, (ix) income tax expense, and (x) depreciation and amortization; and (2) the non-GAAP measures that exclude such information. The Company presents these non-GAAP measures because it considers them an important supplemental measure of its performance and believes the disclosure of such measures provides useful information to investors regarding the Company's financial condition and results of operations. The Company's definition of these adjusted financial measures may differ from similarly named measures used by others. The Company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the Company's GAAP measures. The principal limitations of these measures are that they do not reflect the Company's actual expenses and may thus have the effect of inflating its financial measures on a GAAP basis.
