Brian Murphy, President and Chief Executive Officer, said, "Fiscal 2023 marked our second full year as an independent public company dedicated to building authentic, lifestyle brands that help consumers make the most out of the moments that matter. I am proud of the achievements we made in fiscal 2023, especially given the uncertain macroeconomic environment that the year presented. On a three-year basis, we delivered net sales growth of more than 14% over our pre-pandemic levels, reflecting strength in our e-commerce channel, and driven primarily by growth of almost 34% in our outdoor lifestyle category, which consists of products related to hunting, fishing, camping, and rugged outdoor activities."

"Innovation is our core strength and a key element in our long-term growth strategy. We believe our innovation machine is robust, and new products launched in the past two years generated over 25% of our full year net sales, which is consistent with prior years. Our Dock & Unlock™ process fuels that innovation, and we unveiled a host of new products across our brand portfolio during the year. Several of those products have won industry awards; many incorporate features that are 'cross pollinated' from across our brand lanes; most incorporate proprietary features; and all of them, taken together, advance our strategy to enter new product categories and expand our product lines and distribution channels. An example of this 'cross pollination' is our new BUBBA tournament-grade Pro Series Smart Fish Scale (SFS) and accompanying app, our first entry into the large, underserved, 'catch and release' market, and a product that, we believe, has the ability to reinvent the way anglers pursue their sport."

"In fiscal 2023, we completed several strategic objectives, including the implementation of a new ERP system with the successful go-live of Microsoft D365; the establishment of a new analytics platform with the launch of Microsoft Power BI; the consolidation of our facilities in Oregon, Texas, and Michigan into our Missouri facility; and the finalization of a full lease takeover at our Missouri facility slated for January 2024, which will provide increased distribution capacity for long-term organic and inorganic growth. By maintaining a clear focus on our long-term objectives and making several meaningful strategic investments, we believe we have positioned our company well for the future."

Andrew Fulmer, Chief Financial Officer, said, "In Fiscal 2023, we strengthened our balance sheet, generated significant operating cash flow, remained disciplined with cost control, invested in our long-term growth, and demonstrated effective capital deployment, all while navigating market challenges with consumer demand and cautious retailer inventory management. With robust operating cash flow in the year of \$30.7 million, including an inventory reduction of \$21.9 million, we paid down \$20.0 million on our line of credit and repurchased over \$3.5 million of our stock. We ended the year with a cash balance of \$22.0 million and only \$5.0 million outstanding on our line of credit, yielding a net negative debt position and up to \$92.0 million in available capital."

"Turning to our outlook, we believe that our brands remain well positioned to capitalize on positive, long-term consumer outdoor participation trends. As a result, we believe that our net sales for fiscal 2024 could exceed fiscal 2023 net sales by as much as 3.5%. We also believe our solid financial position enables us to continue executing on our long-term strategic plan as we invest in our business, return capital to stockholders, and address the exciting growth opportunities we have identified for our company," concluded Fulmer.

Reconciliation of U.S. GAAP to Non-GAAP Financial Measures

In this press release, certain non-GAAP financial measures, including "non-GAAP net income and "Adjusted EBITDAS" are presented. A reconciliation of these and other non-GAAP financial measures are contained at the end of this press release. From time-to-time, the Company considers and uses these non-GAAP financial measures as supplemental measures of operating performance in order to provide the reader with an improved understanding of underlying performance trends. The Company believes it is useful for itself and the reader to review, as applicable, both (1) GAAP measures that include (i) amortization of acquired intangible assets, (ii) goodwill impairment, (iii) stock compensation, (iv) facility consolidation costs, (v) technology implementation, (vi) acquisition costs, (vii) stockholder cooperation agreement costs, (viii) fair value inventory step-up, (ix) amortization of acquired intangible assets, (x) income tax adjustments, (xi) interest expense, (xii) income tax benefit/expense, and (xiii) depreciation and amortization; and (2) the non-GAAP measures that exclude such information. The Company presents these non-GAAP measures because it considers them an important supplemental measure of its performance and believes the disclosure of such measures provides useful information to investors regarding the Company's financial condition and results of operations. The Company's definition of these adjusted financial measures may differ from similarly named measures used by others. The Company believes these measures facilitate operating performance comparisons from period to period by eliminating potential differences caused by the existence and timing of certain expense items that would not otherwise be apparent on a GAAP basis. These non-GAAP measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for the Company's GAAP measures. The principal limitations of these measures are that they do not reflect the Company's actual expenses and may thus have the effect of inflating its financial measures on a GAAP basis.
